Dangerous goods shipping checklist

[ ] Board shipped with battery installed = UN3481; standalone battery = UN3480 (hazmat certification, expensive)
[ ] Standalone batteries: state of charge "d 30%
[ ] Carrier explicitly accepts lithium-ion devices from private shippers (confirm in writing)
[ ] Commercial invoice(s) as required, taped to box
[ ] Packaging: rigid box, battery terminals protected, device powered off
[ ] Ship ~7 days ahead; use a carrier center, not an access point
[ ] Declared value matches real value (a low declaration caps your claim)
[ ] Approved forwarder list (community-maintained — add via /submit)
